News 2 new results for hydraulic fracturing

[Lack of State and Federal Oversight of Offshore Fracking Could Imperil the ...](#)  
Truth-Out  
Hydraulic fracturing, or fracking, is a long-used method of extracting natural gas and oil out of spent or difficult gas and oil deposits or out of current wells. It has recently had a resurgence because of new technology and the market push for more ...

[Is fracking behind contamination in Wyoming groundwater?](#)  
Nature.com  
The US Environmental Protection Agency (EPA) sparked a firestorm in December last year when it released a draft report<sup>1</sup> suggesting that the use of hydraulic fracturing — or 'fracking' — to extract natural gas had contaminated groundwater near ...
